

ATTACHMENT D

Labor Market Information for FY2003 Planning

1. **Annual average ES-202 data by 2-digit SIC code for SDAs for 1999 and 2000:**

This data provides employment by industry in establishments covered by the unemployment insurance laws. (2000 is the latest full year available from this source.)

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Internet at www.detma.org; print copy in Research Library.

2. **Selected 3-digit ES-202 data by SDA for the same two years:**

This data breaks out some of the larger industries into finer detail. For example, Engineering and Management Services (SIC 87) is a 2-digit SIC code industry; Research and Testing Services (SIC 873) and Management and Public Relations (SIC 874) are two of the 3-digit industries included within the 2-digit Engineering and Management Services group.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Internet (2000 only) at www.detma.org; print copy in Research Library.

3. **Quarterly ES-202 data by 2-digit SIC code for SDAs for the second quarters of 2000 and 2001:**

The second quarter of 2001 is the latest quarterly data available from this data source. Since the ES-202 data is not seasonally adjusted, it is important that comparisons always be made between the same quarters of different years.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Internet at www.detma.org; print copy (2000 only) in Research Library.

4. **Selected 3-digit ES-202 data by SDA for the same two quarters:**

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Internet at www.detma.org; print copy (2000 only) in Research Library.

5. **Percent Share of ES-202 data by 2-digit SIC code for SDAs for 2000:**

This table provides the percent share of private sector employment by 2-digit SIC codes for the state and the 16 SDAs.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; print copy in Research Library.

6. **Massachusetts Employment Projections through 2008:**
This publication summarizes the Massachusetts job outlook, providing information on the state's fastest-growing industries and occupations and those likely to generate the most jobs.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Internet at www.detma.org; print copy in Research Library.
7. **Massachusetts Detailed Occupational Employment Projection through 2008:**
A companion to the above reference publication, this report provides detailed data on current and projected employment for more than 500 occupations, along with the education and training generally required for employment.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Internet at www.detma.org; print copy in Research Library.
8. **SDA Employment Projections:**
This set of tables provides occupational projections from 1998 to 2008 for all 16 SDAs within Massachusetts.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; print copy in Research Library; electronic copy available upon request.
9. **SDA Long-term Job Outlook through 2008:**
This publication summarizes the job outlook in each of the state's 16 SDAs by focusing on the industries most likely to shape future SDA job growth. It also discusses the impact of these industry projections on the demand for workers.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Internet at www.detma.org; print copies available in the Research Library.
10. **Labor Force and Jobs Tables for SDAs:**
These tables provide historical data on labor force, employment and unemployment of residents as well as UI-covered jobs by place of work.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Downloadable on Internet at www.detma.org; print copy in Research Library.
11. **Massachusetts Occupational Wage Statistics:**
This publication provides statewide mean and median annual (for professional and managerial occupations) or hourly (for all other occupations) wages from the 1998 wage survey.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Internet at www.detma.org; print copy in Research Library.

- Wages from the 2000 Massachusetts wage survey on Standard Occupational Codes (SOC) is available on the internet at http://www.bls.gov/oes/2000/oes_ma.htm

12. Massachusetts Occupational Wage Statistics by Service Delivery Areas:

This is a companion to the preceding publication and provides similar data for each of the 16 SDAs.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Internet at www.detma.org; print copy in Research Library.

- Wages from the 2000 Massachusetts wage survey on SOC for each of the 11 MSAs is available on the internet at <http://www.bls.gov/oes/2000/oessrcma.htm>

13. Claimant Characteristics by SDA:

This set of tables provides detailed information about claimants for unemployment insurance by SDA for both calendar years 2000 and 2001. The data includes race, ethnicity, gender, age, educational attainment, prior earnings, occupation and industry for claimants.

Available Formats: CD: *Labor Market Information for FY 2003 Planning (2001 only)*; print copy in Research Library.

14. Mass Layoff Statistics by SDA:

This set of tables provides information on mass layoff claims by SDA for the most recent quarters. The data include race, gender, and age distributions.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*

- Mass Layoff Statistics for Massachusetts and other states (statewide only) are available on the internet at <http://www.bls.gov/mls>

15. Population Trends:

This set of tables provides 1980, 1990, and 2000 population counts from the Decennial Census for SDAs and their component cities and towns, as well as for the largest cities in the Commonwealth.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; print copy in Research Library.

16. High Technology in Massachusetts: The Industries, The Workers:

This publication provides information on high-tech industries in Massachusetts, including where jobs are found, and what they pay. Also provides information on the impact of high-tech on each of the five regional economies and the proportion of information technology workers employed in each high-tech industry.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Internet at www.detma.org; print copy in Research Library.

17. Career Moves:

This revised publication profiles fast-growing occupations in Massachusetts, providing information on the factors driving job growth, wages and salaries, education and training requirements and industries where jobs are currently found.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Internet at www.detma.org; print copies and bulk orders available directly from the Research Library and the DET Supply Unit.

18. Local Unemployment Rates within SDAs:

This set of tables provides annual labor force and unemployment data for 2000 and 2001 for each SDA and its component cities and towns.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; print copy in Research Library.

19. SDA Unemployment Rates for 1991 and 2001:

This table compares annual SDA unemployment rates in 1991, the height of the recession, with annual unemployment rates for 2001.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; print copy in Research Library.

20. Local Area News Release:

This monthly news release highlights major trends among Massachusetts labor market areas, along with a table of current, month ago, and year ago labor force and unemployment data.

Available Formats: CD: *Labor Market Information for FY 2003 Planning*; Text on Internet at www.detma.org; print copy in Research Library.

NOTES:

1. ES-202 data for Calendar Years 2000 and 2001 is being developed on both the Standard Industrial Classification (SIC) and the North American Industrial Classification System (NAICS). Beginning in CY2002, ES-202 industry data will be available only on NAICS.
2. LMI for FY'03 planning will be available on compact disc (*Labor Market Information for FY2003 Planning*) no later than March 25, 2002. CDs will be distributed by mail to all workforce development partners (Workforce Investment

Board Chairs, Workforce Investment Board Directors, Title I Administrators, Career Center Directors, DET Regional Directors and DET Area Directors) who will be working on the FY '03 plans. Additional copies will be available from DET's Office of Economic Analysis on request by contacting: 617-626-5744.
